Meta Frontend Developer

SKILLS

- HTML5
- CSS3 / Tailwind CSS
- PHP
- JavaScript / TypeScript
- React
- Node.js
- Next.js
- Strapi CMS
- REST APIs
- Git / GitHub
- CI/CD Pipelines
- Jest / Unit Testing
- StoryBook
- Middleware
- Monorepo
- Payment Gateway Integration
- Third-Party API Integration
- Staging & Production Environment Management
- Responsive / Mobile-First Design
- Performance Optimization

WORK EXPERIENCE

Frontend Developer

Nov 2024 - Present

Grace Gaming

- Build scalable web applications supporting high-traffic platforms.
- Develop and test React.js components using Tailwind CSS.
- Manage CMS-driven content across multiple environments.
- Integrate REST APIs, payment gateways, and third-party services.
- Implement frontend logic and middleware for dynamic data handling.
- Deliver compliant features aligned with regulatory requirements.
- Manage staging and production environments within CI/CD pipelines.
- Use Git and GitLab for version control and structured branching strategies.
- Create and review pull requests to maintain code quality standards.
- Coordinate releases and resolve merge conflicts across shared repositories.

Frontend Developer

Nov 2023 - May 2024

CodePioneerz

- Coordinated frontend task allocation and tracked sprint progress to meet delivery timelines.
- Led daily stand-ups and acted as the main frontend liaison for stakeholders.
- Reviewed pull requests and ensured adherence to coding standards.
- Planned releases, managed deployment schedules, and reduced production risks.
- Collaborated with Product and Design to define scope and technical requirements.
- Monitored timelines, resolved blockers, and escalated risks when necessary.
- Improved team workflows and strengthened development processes.

Frontend Developer

Apr 2022 - Jul 2023

Crategic Ltd

- Delivered end-to-end features in React and TypeScript from concept to production.
- Built dynamic dashboards and data driven interfaces with optimised rendering.
- Refactored legacy code to improve performance and maintainability.
- Integrated secure authentication flows and external APIs.
- Implemented responsive, mobile first layouts with modern CSS frameworks.
- Strengthened test coverage with unit and component testing.
- Partnered with backend engineers to troubleshoot and resolve integration issues.
- Contributed to sprint planning, technical estimations, and release cycles.

Frontend Developer

Jan 2019 - Feb 2022

Midnight Roots Cosmetics

- Developed scalable React applications using TypeScript and modern hooks.
- Designed reusable component libraries to standardize UI patterns.
- Integrated authentication systems.
- Improved application performance through lazy loading and code splitting.
- Collaborated with backend teams to refine API contracts.
- Implemented state management solutions for complex data flows.
- Contributed to CI/CD pipelines and automated build processes.

Frontend Developer

Apr 2017 - Nov 2018

Vrokr Inc

- Built responsive user interfaces using React.js, JavaScript, and CSS.
- Consumed REST APIs to display dynamic data in web pages.
- Fixed UI bugs and improved cross-browser compatibility.
- Worked closely with designers to translate Figma mockups into code.
- Assisted with staging deployments and environment configuration.
- Maintained clean, reusable component structures.

Assistant Supply Chain Manager

Jan 2013 - Aug 2016

L'Oréal Luxe

- Managed stock levels and inventory control in collaboration with the Supply Chain Manager at L'Oréal Luxe.
- Monitored product availability and coordinated replenishment to prevent shortages.
- Supported the implementation and day-to-day management of a new POS system for online sales.
- Ensured accurate stock synchronization between in-store inventory and online platforms.
